## T. W. Lawlor Elected President Grande Prairie Board of Trade At Their Annual Banquet

Upward of eighty sat down to the annual Board of Trade banquet, held in the Hotel, Grande Prairie, on Thursday evening. The occasion combined the social side and the election of officers.

D. W. Patterson, president, who acted as toast master, explained that the election of officers was left over from a previous meeting for the reason it was hoped to have more present at the annual banquet.

The following officers were elected: President, T. W. Lawlor; vice-president, J. M. Smart; secretary, P. J. Tooley.

Executive—E. Culver, Frank Howell, Jack Mantle, A. H. McQuarrie, C. H. McKay, J. E. Thomson, I. Nelson, and Hector Sturges.

D. W. Patterson was pleased to let his name stand for re-election to the presidency. While appreciating the honor, Mr. Patterson replied that his duties would not permit of his accepting the office again.

In his presidential address Mr. Patterson, who spoke briefly, observed that there seemed to be an impression abroad that the Board of Trade was a closed corporation. He assured his hearers that this was not so and the positions were open to every citizen. He did not think that it was necessary to go into details about the activities of the Board for the past year, as this had been covered at the previous meeting.

The newly elected president, Mr. T. W. Lawlor, on being called upon, said that while he appreciated very much the honor done him, as he had served in the capacity as president before and on the executive, he was quite aware of the amount of work that the office involved.

Mr. Lawlor then outlined some of the problems to be faced by the incoming board. He mentioned the outward freight distributing rates, the four mill, travelling of the roads, the urging upon the government to have the vacant lands settled upon, as a means of increasing population and to prevent poor land being settled upon, as some of the items to be striven for during the ensuing year.

Mr. Lawlor observed that the Board of Trade does not belong to any one individual, but it is yours. He asked for (Continued on Page Eight)

#### IS BEING VISITED BY A GOOSE

A goose—or maybe it is a gander—has been visiting the place of a long time to Felix Gustin. A good job it is a goose and not a stork for the latter might have brought a somewhat embarrassing event to Felix!

BRITAIN PLANS ONE-HOUR AIR SERVICE TO PARIS

To demonstrate the possibilities of a "flying hotel" Douglas air liner on an ultra-rapid passenger service between England and Le Bourget Aerodrome, Anthony Fokker, Dutch aircraft designer, flew one of these speedy machines over the proposed air route. If the British representatives desire to establish a new speedy service between England and France they will purchase four of the above planes, which is the same type as the machine which finished second in the London-Melbourne Air Race. When this picture was taken the Douglas Air Lines was about to leave on the demonstration flight.

PORTUGAL HAS PROBLEM

No Room For 282 Convicts Sent Back From Colonies

Two hundred and eighty-two convicts—and nowhere to put them. This is the problem which is puzzling the prison authorities in Portugal. The convicts who have arrived in the country from Portuguese colonies, from which they have been sent as convicts from Portugal, can no longer remain in the colonies. Many hundreds are to return to their native land, in accordance with the provisions of the Colonial Act. The 282 who have arrived cannot be accommodated in the Lisbon prisons as these are already overcrowded. They are to be placed in "concentration camps." Many are criminals of the worst type.

STERLING GOAL-KEEPER

UNIQUE MEMORIAL WINDOW

Lineur Mauretanis is Pictured in English Cathedral

The liner Mauretanis has added another distinction to her long list of records. In St. Nicholas Cathedral at Newcastle was dedicated a stained-glass window picturing the famous Canadian framed in the blue ribbon she held for so many years. The window is a memorial to Andrew Leing, who designed the Mauretanis's record breaking engines. This is believed to be the first time any ocean liner has been immortalized in a cathedral window.

TWENTY YEARS LATE COURT CLEARS FAMILY CONVICTED AS SPIES DURING GREAT WAR

Tardy vindication of the memory of a French family, two of whom died in jail for allegedly spying and aiding the enemy in war time, was granted on January 19 in a military court. A total of 28,000 francs in damages (\$1,850) was awarded to surviving members of the family of Louis Moreau, who had been fighting for twenty years to clear their name.

Moreau and two of his sons were sentenced at the time to penal servitude in French Guiana, while his wife got a prison sentence for allegedly sending to Germany with a bicycle lamp. Moreau and his wife died in jail. The two sons later were pardoned by a post-war premier as victims of "war hysteria."

The court decided that the light flashes seen at Moreau's house had not been proved to be signals, since the Moreaus did not know how to send code messages.

DETROIT SHARPSHOOTER

Herbie Lewis, sharpshooting forward of the Detroit Red Wings, holds fifth position in the United States division of the N. H. L. by virtue of 24 earned points. Although he has scored only eight goals he has sixteen assists to his credit.

Canada recently lost a one million dollar order for wheat from China because the Chinese bankers "resented our contempt for them," Prof. C. T. Curdell, curator of the Royal Ontario Museum, told members of the Optimists Club in Toronto.

Prof. William L. Carlyle, manager of the Prince of Wales E. P. ranch near High River, Alta., said there was a better demand for stock this year than last and prospects for general improvement in Western Canada were bright.

## WOULD DESTROY PRIZE POULTRY

TORONTO.—All prize birds entered in poultry contests should be slaughtered immediately after the competition. Dr. C. H. Weaver of the Dominion experimental farm, Ottawa, told members of the Canadian National Poultry Record Association in convention here. "Only by such radical action can the spread of infection and contagious diseases among poultry be checked," he said.

STONE AGE INDUSTRY STILL SURVIVES

In the little town of Brandon, Suffolk, England, two Englishmen work at their ancient trade of flint-knapping, an industry which has been carried on at Brandon since the stone age. They are the last two flint knappers—the men who make flints for the old-type of flint-lock guns which are used abroad by natives—to be found in England. Here we see one of them at work on the flints, more than 500,000 of which have been shipped to China and West Africa.

## BOOK TALK

The Pauline Plot by Herbert Adams.

A readable mystery story, simply told. The characters are a healthy type of English and American people. With the exception of the going and staying to wreck them. The plot is sufficiently exciting to hold the reader's attention.

European Journey by Philip Gibbs.

St. Philip Gibbs writes with an open mind and unbiased judgment. He travelled through France, Switzerland, Italy, Austria, Hungary and Germany, observing the condition of these several countries, talking to the "man-in-the-street," seeking to discover their viewpoint. To find in all the places he visited the same horror of war and the wish for peace, but a deeply-rooted fear and distrust of their neighbors, and a realization of their hopeless economic state.

No hope of the future but rather a dread of, and a belief that they would have to go through worse suffering and deprivation than that which they had already experienced in the past. This is the theme of the book. Living under the shadow of war or internal revolution.

When he phoned again a few days later he was informed that the pipes were thawed out, but the cellar was flooded. We wonder if Mrs. Harner sighed for the pitiable blessing (?) of her Grande Prairie days.

## Doing Much Sun. School Work In Peace River

Next week the Presbytery of the Presbyterian Church meets in Grande Prairie and Rev. J. F. Minor, minister of Fort St. John, secretary, has supplied the following information:

Grande Prairie, with a total enrollment of 31, is the largest school in the Presbytery of Peace River, according to reports from all the fields compiled by the Department of Sabbath Schools and Young Peoples Societies.

There are 12 organized Presbyterian Sunday schools in the whole Peace River country, with a total enrollment of 374.

In addition there are several unorganized and partially organized Sunday schools, not included in the above report.

Knock Presbyterian Sunday school at Wadhams reports the largest enrollment of 20.

Seven of the 12 Sunday schools are south of Peace River and five are north of that stream. The former are at the following places: Grande Prairie, Wadhams, Heart Valley, Prentissville and Westvale in Alberta, and at Riverside and High Ridge in British Columbia. These seven Sunday schools show a total enrollment of 227.

The five Sunday schools north of Peace River are: Brownvale, Griffin Creek, Dixonville and West Hill in Alberta, and Fort John in British Columbia. These five schools have a total enrollment of 144.

Griffin Creek is the largest of these, with six officers and teachers and 35 pupils, and a total enrollment of 30. ## T. W. LAWSON ELECTED PRESIDENT OF A. T. ANNUAL BANQUET (Continued from Page One)

the hearty cooperation of everyone in helping to do something for the town and district.

Dr. O'Brien moved a vote of thanks to the retiring officers. This was seconded by A. R. McMillan.

L. C. Porteous, who was chairman of the agricultural committee for several years, said that he was pleased to accept the vote of thanks, and added that he thought that it was safe to say that all the major movements in the Peace River started right in Grande Prairie.

JUDGE MATHESON

The chairman then called upon His Honor Judge Matheson, the speaker of the evening.

His Honor, at the outset of his remarks said that he was grateful to the retiring officers for the opportunity to be present at the banquet and to himself. He took the invitation as being more in honor to his office than to himself.

His Honor frankly admitted that he had no set subject and that his remarks would be in the nature of a free lance ramble.

In these times, said the speaker, "we hear a lot about over-production. I firmly believe that the over-production of public addresses."

His Honor observed that there was only one right opinion about anything. In matters of ill-temper, especially in the case of the speaker, there should be but one opinion. On the matter of honoring obligations, there should be no opinion at all.

With which Britain has met her obligations has made her the greatest nation in the world.

Walter Scott, working night and day to pay his debts, was another instance of a man who did not get into trouble. His Honor then went back a few years and reminded his audience that the ideal type of man, pointed out and looked up to was the man whose word was as good as his bond. It was accepted.

Continuing, His Honor said that there was a difference of opinion in scientific matters, but that there was only one opinion. If a man could be found who had sufficient knowledge to back his truth, the men who had down the common law of England had the law, they declared it and it was accepted.

Referring to present-day conditions, His Honor drew attention to the habit which often takes place over the radio and in the newspaper, of the press. "Is there any wonder?" he asked.

In all these subjects discussed there is but one right opinion. His Honor then turned his attention to the reading of good literature and good papers. He paid a high tribute to the high moral standard which has maintained for the last fifty years.

## DEBOLT AGRICULTURAL SOCIETY PLANNING TO HAVE BEST EXHIBITION EVER HELD

T. J. Starkey of DeBolt was a visitor in Grande Prairie on Tuesday, in conversation with The Tribune reporter. Mr. Starkey is secretary of the DeBolt Agricultural Society, stated that the society is planning on holding the largest agricultural fair during the coming summer ever held in the county.

The visitor also stated that the next annual stampede promised to be the best ever staged at DeBolt.

Mr. Starkey is the official announcer at this big annual event. He left on Tuesday night's train for Buffalo Lakes camp, where he will be employed by the Buffalo Lakes Lumber Company for the balance of the winter.

## Aeroplane Type of Snowmobile Found Highly Successful

A new type of snowmobile recently made its appearance on the streets of Grande Prairie and on the highways leading out of the town.

The machine, built in Joe Crumley's garage by Jim McDonald, who for some eight years has been a mechanic at the garage, and Fred Hartley, mechanic at Crumley's garage.

The new machine, which has been tested out on several occasions and more than satisfied the inventors.

The tests were made on the level with ten passengers, and later tried out on several hills, on these tests the machine showed that it was more than half the weight of a snowmobile of the same speed of more than four miles an hour on the level, the hill being taken without the slightest difficulty.

The snowmobile is powered with a 180 h.p. Hispania engine airplane engine, which is mounted on a chassis of an airplane cabin, being streamlined to suit the design.

The machine runs on four wheels, the front wheels being 10 inches wide and six feet long. The steering apparatus is the same as that of an automobile, the break being on the rear axle, controlled from the driver's seat.

The cabin is very comfortable and in cold weather can be heated from the engine, the seating capacity for eight passengers.

The machine is designed and built for the purpose of being used during the winter when it is impossible to run automobiles.

Speakers followed as nearly as possible, airplane principles in construction.

## G. P. Model Flying Corps

The boys are about settled down in our new workshop and the work on models has begun under better conditions. Andrew Neil is in charge of the model models of which he has one under construction.

Any boys or young men interested in model models should join up now, since we have more room, we hope to build models of every kind as we go along.

An article by our worthy president, J. W. Neil, appears in this column. It is hoped that anyone building flying models will read it carefully.

Albert Fox (Flight Leader) has been appointed as secretary of the Flying Corps with his group on scale models.

WHY IT DOESN'T FLY

We have found that weights can be added to correct a stalling model or to correct the cause. Then, too, when a plane is adjusted like that, its flight is cut down to about one half. If you find that a plane is stalling, when you want it to fly, it is simply that the plane is not properly adjusted.

sliding because the propeller is not working. Instead of being straight and shortening the flight by adding weights, just move the hole down a little ways in the propeller. You will then find that the plane will fly without having to be straightened out.

Warping the tail is practiced but this increases drag and when we can do it easily by a better way, why not do it? Do not expect to find the tail position on the first try but keep moving the tail until you find it. Excessive incidence in the tail will cause the plane to stall. But don't expect to do this wonderful three-point with the power turned on.

As soon as you get the power on it will stall, because of the wind from the propeller striking the bottom of the wing. Remember that a two-surface wing hardly ever requires more than a few degrees of incidence. If it has more, the plane will stall. The way to correct this is to change the incidence of the wing. If the plane still stalls in the nose, if the plane still stalls in the tail, look to the line of thrust. If the line of thrust is not straight, the plane will stall. If the line of thrust is not straight, the plane will stall.

There being no opposition in Division 2, Mr. Joseph Tinsington was re-elected by acclamation. This is his third term as Councilor. The district wishes him the best of luck.

Mr. Wm. Harle, who has been in the hospital undergoing an operation, came home last Saturday afternoon, and, though slow, we hear that she is improving and we hope to see her about as usual as very soon, well and strong.

We are pleased to hear that Miss Josephine Strach, who recently housekeeper for Mr. N. P. Pomeroy, has moved to her new position with Mrs. (De) W. T. Haynes in town.

TWILIGHT, Feb. 20.—In last week's news, where it read "Welcome back to our old friend, it should have been 'Tupac'."

JOHNNY JOHNS INJURED

OXFORD GROUP WORKERS HERE

Rev. A. W. Temple of Beaver Lodge held divine service at the schoolhouse on Sunday afternoon. He was accompanied by two members of the Oxford Group team from Edmonton.

Mr. Temple briefly explained the beginning of the Oxford Group Movement, after which he introduced Mrs. Allen Smyth, who told the meeting of the events of her life, and how she came to be connected with the Movement.

Miss Amanda Henderson also told of her experiences and how she had become connected with the work. There was a good attendance at the service.

Miss Nora Mortimer, who has been studying in Grande Prairie, returned home on Friday's train.

Messrs. Glen Conley and John Henderson came to the Borden road this week.

The order of the day seems to be going to the bush and having wood sawn in this district. Mr. Bolton has been going to the mill and Mr. McNeil of Two Rivers has also been in the district on the same business.

A meeting of the Community Club will be held on Friday, February 22.

## VALENTINE DANCE

Quite a nice party gathered for the Valentine dance on Friday night, for which the orchestra supplied very appropriate musical items.
